

# ARE 213 Problem Set 1B

Becky Cardinali, Yuen Ho, Sara Johns, and Jacob Lefler

Due 10/12/2020

## Section 1

1. In Problem Set 1a, you used linear regression to relate infant health outcomes and maternal smoking during pregnancy. Please answer the following questions.
  - (a) Under the assumption of random assignment conditional on the observables, what are the sources of misspecification bias in the estimates generated by the linear model estimated in Problem Set 1a?
